PRESIDENT'S MESSAGE

JOE CAMPBELL - PVPA PRESIDENT

Greetings PVPA,

As we prepare for the Paris 2024 Paralympic Games, we currently have three teams that have qualified to attend. Congratulations to men & women's teams of Brazil, and to the women's team of USA. I wish much success to other PVPA teams striving to qualify for Paris, as they compete in the WPV World Cup as well as the men & women's last chance qualification tournaments.

Thank you to Volleyball Canada as they successfully hosted the 2023 PVPA Zonal Championships in Edmonton, Canada (May 9-13). PVPA also held their General Assembly where the positions of Vice President, Development Director, and Communications Commissioner were up for election. Current chair holders ran unopposed, so no vote was needed. Thank you to these members for their dedication and willingness to continue in their position.

- Vice President – Laura Cometto (ARG)
- Development Director – Genni Tunney Canon Reyes (COL)
- Communications Commissioner – Vanessa Redes (BRA)

The Youth Parapan America Games were held in Bogota, Colombia, June 2-12, 2023. It was great to see some new nations competing internationally for their first time. A president's meeting was held with the nations of Argentina, Brazil, Colombia, and Venezuela where we discussed future youth competitions within the zone. Currently our youth only get a chance to compete every four years at these championships. It was agreed that they need more competitions in order to grow and thrive in our sport.

Effectively Immediately: Guidelines for prostheses and uniforms at WPV competitions have changed. Input was requested from the Sitting Volleyball Rules of the Game Committee, Referee Commission, Coaches Commission, Technical Commission, and other experienced TDs to provide comments on these two issues. As a result, effectively immediately, modifications to the current guidelines have been endorsed. Please look on the PVPA website to see the details of these new guidelines.

I ask each nation to continue to educate and train your athletes in all three disciplines (sitting, beach standing, and youth) and submit BIDs to Cris Figueira to host tournaments in 2024 and 2025. We also need more nations to become WPV members as we currently have 6 member nations.

Best regards,
Joe Campbell
PVPA, President

PVPA TEAMS QUALIFIED

PARIS 2024

Three teams from the Pan American Zone have already secured their places at the Paris 2024 Paralympic Games. Women's Brazil achieved their qualification brilliantly by winning the World Championship in Bosnia in 2022, demonstrating their supremacy on the international stage. Meanwhile, the United States women's and Brazilian men's teams secured their places by triumphing in the Zonal Championship held in Edmonton, Canada, in May 2023, showing the strength and determination of the region's Paralympic athletes.

The race to fill the remaining spots at the Paris 2024 Paralympic Games is more exciting than ever, and the Pan American Zone teams are engaged in a herculean effort to win them. With intensive training, tireless dedication, and an unwavering spirit of overcoming, these athletes show their determination to succeed. Each competition becomes a unique opportunity to prove that they deserve to represent their countries on the international stage, and their passion inspires us all.

Anxiety and excitement are at an all-time high as these teams fight tirelessly for the right to compete in Paris and inspire the world with their achievements in Paralympic sport.

BRAZIL AND USA QUALIFIED TO PARIS 2024

Edmonton hosted two more classifications for the Paris 2024 Paralympics

The ParaVolley PanAmerica Zonal Championship was decisive for two more teams from the zone to qualify for the long-awaited Paralympic Games.

Among the women's teams, with the last-minute absence of the Brazilian team already classified, after winning gold at the World Championship in 2022, for the next Paralympics, the teams from North America, USA and Canada put up a great fight for the spot.

Among the best of 5 games, the American team won a place in Paris 2024 and the gold medal of the 2023 Zonal championship.

The men's competition had its dispute between four teams, the newcomer Argentina who had an incredible competition, the hosts Canada, the Americans and the Brazilians. After five days of games, Brazil won the dream Paralympic spot in a high-level final against the Americans.

With the end of the zonal championship, the Panamerican Zone already has 3 places in next year's Paralympic Games, with Brazil being women's and men's and USA women's.

Our teams are still in the race for the remaining places that can be won during the World Cup that will take place in Egypt in November this year, or in another qualifying tournament to be defined for the beginning of 2024. We are hoping that all our teams to win the vacancies.

In July, Kazakhstan (M) have qualified as the highest placed non-qualified team.

and China (W) have qualified as winners of the

2023 ParaVolley Asian Zonal Championships in Astana, Kazakhstan.

See you in the next edition with more news...

Six spots have already been filled in the 16-team (8 teams per gender) Paris 2024 Paralympic Games sitting volleyball tournament.

There are 8 remaining positions to be determined.

ZONAL CHAMPIONSHIP YOUTH CHAMPIONSHIP

The best of the year were recognized in the categories

The Zonal and Youth championships in sitting volleyball at PVPA play a fundamental role in the development and motivation of athletes. Firstly, these tournaments provide a crucial platform for young talent and up-and-coming players. They offer the opportunity to compete in a more accessible environment where they can hone their skills, gain competitive experience, and strengthen sportsmanship. Furthermore, these championships encourage the formation of youth teams, essential to guarantee a robust future for the sport, promoting its continuity and growth.

The competition for best-in-class awards in Zonal and Youth championships also plays a crucial role in improving the game quality in sitting volleyball. By aspiring to these awards, athletes are motivated to give their best effort, perfect their techniques and team strategies, and maintain high dedication throughout the competition. This creates a culture of excellence and healthy competitiveness, reflected in exciting, high-tech games. Furthermore, the quest for personal excellence and recognition as the best in their categories drives the growth of sitting volleyball, attracting more talent and inspiring future generations to get involved in this inclusive and exciting sport.

Discover now the best of 2024 in the Zonal Championship and Youth Championship.

NTOS, STAFF AND VOLUNTEERS

We need you and we are happy to have each of you

Volunteers play an essential role in any sporting competition, and their importance transcends what is typically seen on the courts or playing fields. They are the true pillars that support the event, providing valuable behind-the-scenes support to ensure everything runs smoothly. From pre-event organization to logistics during competitions, volunteers play crucial, often invisible, but indispensable roles. They dedicate their time and energy selflessly, contributing to the overall experience of athletes, coaches, and spectators.

National referees also play an essential role in any competition. They are responsible for ensuring the composition of an arbitration team with impartiality and justice in each dispute, maintaining the integrity of the game. Your presence ensures that all rules are applied consistently, creating a fair and safe competitive environment. Furthermore, the on-site staff, which includes a variety of professionals such as doctors, statisticians, technical staff, security technicians, cleaning staff, and many others, plays a vital role in the operational support of the event. Many essential aspects of the competition would only work with these people. Therefore, all these individuals, volunteers, and professionals deserve our recognition and gratitude for their tireless dedication to making sports competitions possible and memorable. Your hard work and commitment contribute significantly to the success and quality of sports competitions worldwide.

Thank you

YOUTH GAMES

The Importance of Youth Games.

We know the importance of youth game theory for developing sports and integrating young people with physical disabilities into the sporting world. In practice, we also know the difficulties of having a team of young people, where many injuries that bring athletes to sport occur after adulthood, and other cultural factors are involved.

But more than just theory and practice, today we bring the personal side that shows the importance of this tournament for our Zone, our coaches, and especially our young athletes.

We spoke to some people involved in the games in Bogotá in June, and we had a unanimous response from everyone: participating in these games is of indescribable importance and a unique experience.

Lucas Haranda, an athlete from Brazil, told us it was his first international competition. And through this competition, you can have the experience and opportunity to play with other teams and see different ways of playing for each team. And in the 3 x 3 format, the trio together makes a massive difference for the team.

“This was my first international competition, which was essential because it is also present in the adult team, which is my goal. So for me, the Youth Parapan was important for me to feel what it means to be a national team athlete and to focus even more on my goal of joining the adult team.”

Cris Figueira was the Technical Delegate for the competition and commented that the Youth Parapan-American Games offer an opportunity for young athletes with disabilities to develop their sporting talent from an early age. This could lead to the growth of the adapted sport at the youth level and the emergence of future high-level Paralympic athletes.

By creating a competitive framework for young athletes with disabilities, the games can help drive the development of adapted sports in countries across the Americas and improve sports infrastructure and training programs for athletes with disabilities.

The competition is vital in promoting inclusion, talent development, awareness, and inspiration for young athletes with disabilities. They contribute to the growth of adapted sports and construct a more inclusive and egalitarian society.

Lazaro Beltran, the PVPA Technical Commissioner, also gave his perspective on the games. “One of the most unforgettable experiences for every player of the minor or youth categories of Para-Volleyball is to have the opportunity to participate in this type of tournament explicitly created for them in their classes, the possibility of seeing in action several teams from different countries of the American continent make the interest, quality, and above all participation, in general, be part of all of us as Organization.

The development of players with physical disabilities is a task that combines patience, dedication, and much interest in helping these players develop physical abilities that they did not know before, especially in playing sitting volleyball. Having managed to prepare a team that represents their nations in this Tournament means having done preparation work not only to participate in this Tournament but also to ensure that these players continue with this preparation to develop further the physical, technical, and tactical capabilities that will give them the possibility in the future to be part of a national team.

We must dedicate ourselves to continuing learning, listening, developing our cognitive skills, and evaluating our achievements, whether great or small. Knowledge is not a secret; it is something to share and be better.”

ARGENTINA

PAGE 11

Debut Year

Argentina had dreamed of it so much, and it finally came true.

In March, they were invited by Sesi Suzano to share their training and friendly matches with the women's and men's teams. It was a week of pure learning.

In May, the Pan American Zonal arrived in Edmonton, Canada.

What a joy to play against teams of the magnitude of Canada, the United States, and Brazil. They met the objectives proposed by coach Mariano Montivero, which aimed to do what they had trained for on the field individually and collectively. Argentina consolidated itself as a "team" which was the first step to continue projecting.

In June came the long-awaited Youth Para Pan American Games in Bogotá, which Argentina liked—another extraordinary experience. They met the youth teams from Venezuela, Colombia, and Brazil who will be the future senior teams, and indeed, the South American continent has a future if unity and constant work are achieved.

Argentina's boys had an excellent tournament, under the leadership of Professor Daniel Díaz and Professor Andrea Appendino. In each game, they grew and strengthened. Again, the 1st objective was to "play volleyball as they had trained, winning or losing went the other way." As a country criterion, they believe that in the early stages, they must be able to put into play what they have learned, consolidating the teams from a human and strategic perspective.

For its part, the youth women's team took second place, winning the silver medal behind the great team from Brazil. The young women begin the Senior Selection process this month.

They continue in the race. In October, the men's senior team will participate in the SESC 2023 ParaCopa in Curitiba, Brazil.

Also, by the time you read this newsletter, the Evita National Games - Under 18 School Championship - will already be held in the City of Mar del Plata - Argentina, where we recruit players for the youth programs.

Great job ARGENTINA!!!!

Beach Paravolley and Sitting Beach Volley Tournament

On the past Sunday, October 8th, for the third consecutive year, the Beach Paravolley and Sitting Beach Volley Tournament took place at the headquarters of Club Atlético Pilar in the Municipality of Pilar, Buenos Aires, Argentina. In the case of Beach Paravolley, it was the 13th National Edition, and for Sitting, it was the 3rd Regional Edition and 2nd National Level Edition.

This event had the endorsement of the APA (Argentine Paravolley Association), the support of the FIVB, and awarded points for the Argentine Beach Paravolley Circuit. The National Men's and Women's Selection team utilized this event, among others, as part of their training in their annual calendar. In the local and national competition, the participation of players without physical disabilities in team formation was allowed, as it was on this occasion, making it a real demonstration of inclusion with a cutting-edge format.

Delegations from different provinces and localities participated, including Chaco (Resistencia), Santa Fe (Rosario), Córdoba, and Buenos Aires (Pergamino, Junín, Mar del Plata, Hurlingham, Tortuguitas, San Miguel, J.C. Paz, San Martín, San Fernando, Zárate, Campana, Cardales, Chivilcoy, La Matanza, Grand Bourg, San Miguel, Quilmes, and Pilar), CABA, and National Teams. This year, they expected more delegations to join. Similar to the previous year, this occasion featured the presence of influential athletes from the Argentine Volleyball Selection and National Leagues.

Registered players could participate in one or more of the following categories:

1. SBV "A" (Sitting beach): 3 vs. 3 Team composed of players with physical disabilities.
2. SBV "B" (Sitting beach): 3 vs. 3 Team composed of male and/or female players, with and/or without disabilities.
3. BP Femenino: 3 vs. 3 standing. (Beach Paravolley) Team composed of female players, with and/or without disabilities.
4. BP Masculino: 3 vs. 3 standing (Beach Paravolley) Team composed of players with and/or without disabilities.

The tournament took place on 4 outdoor sand courts in an area that provided space for both competition and the enjoyment of a recreational day among family and friends. This tournament aimed to be one more expression of the dissemination and promotion of this wonderful sport in the city, as well as the encouragement of human relationships with equal opportunities, contributing to personal and sports growth.

Furthermore, it served to strengthen the bonds of friendship among various clubs, associations, players, coaches, students, and the general public, all of whom are immersed in sports activities on a daily basis. It was their desire to project from the next year onwards and to share this event with delegations belonging to PARAVOLLEY PAN AMERICA, forging connections to continue expanding their horizons and thus create a more solid foundation on this wonderful path of personal and professional growth, giving this sport the attention it deserves. They wanted to make this a step further to promote Beach Paravolley, working hard to provide an opportunity for our players and those from the entire region to compete and tirelessly seeking inclusion in the upcoming 2032 Games in Brisbane, Australia. Let's keep betting. Their work and effort would undoubtedly yield generous results sooner or later.

Sitting Volleyball Course

During the USA 2023 Open National Championship there is a traditional Sitting Volleyball division, this year 9 teams played the tournament in Dallas, TX, with 26 matches.

The final classification is:

- 1- Dimes (NC)
- 2- Oklahoma Region Sitting (OK)
- 3- Bad Knees (SO)
- 4- SNTDP Mizuno (OK)
- 5- Limitless (FL)
- 6- NorCal (NC)
- 7- Alamo (LS)
- 8- No Hops (GP)
- 9- Houston Heat (LS)

During this event, the USA Volleyball took advantage of the games and lot of referees together and did one more referee course for Sitting Volleyball.

The course was lead by Christina Fiebich with Thang Nguyen and supervised by our president, Joe Campbell.

The approved were:

- Alexis Sheldon - Badger
- Callie Davis - Carolina
- Jordan Bennett - Lone Star
- Kelsi Jurik - Iowa
- Kirsten Boessneck - New England
- Lauren Dennard - Sun Country
- Mel Cayetano Southern - California
- Michelle Hayes - Aloha
- Rachael Rodriguez - Lone Star
- Robert Kyle - Old Dominion
- Shawn Davis - Southern
- Wesley Radigan - Southern

SAFEGUARDING:

IT'S EVERYONE'S RESPONSIBILITY

Hey there! Did you know that safeguarding in sports is super important to ensure that athletes can have fun and compete in a safe environment? It involves taking measures to protect athletes from harm, such as preventing abuse, promoting positive behaviors, and providing support when needed.

Creating a safe environment is a big part of safeguarding in sports. This means making sure that coaches, officials, and volunteers who work with athletes are trained and qualified, and that there are rules and procedures in place to keep everyone safe. It also involves promoting a culture of respect and inclusion, and educating athletes on how to build healthy relationships and stay safe.

It's also really important to be on the lookout for signs of abuse or neglect, like bullying, harassment, or exploitation. If an athlete experiences any of these things, they should feel comfortable talking to a trusted adult or organization for help. Support like counseling, medical care, or legal assistance can also be really helpful for athletes who have experienced harm.

In short, safeguarding in sports is all about making sure that athletes can play and compete in a safe and enjoyable environment. By taking steps to prevent harm, promoting positive behaviors, and providing support when needed, we can help ensure that everyone can participate and have fun!

World ParaVolley prioritizes the safeguarding of all athletes, coaches, technical officials and volunteers involved in participating in its activities. The WPV Board established the Safeguarding Integrity Commission to oversee the implementation of an organisation-wide safeguarding policy and program system. At WPV international tournaments a Safeguarding Officer is identified to facilitate reporting, and help provide additional support and guidance.

At the Zonal competitions, the Asst. Technical Delegate (TD) will serve as the Safeguard Officer.

UPDATED GUIDELINES FOR

PROSTHESES AND UNIFORMS

Following feedback from athletes and technical staff, World ParaVolley undertook a review of the location of prostheses on the Field of Play (FOP) and the wearing of compression garments. Input was requested from the Sitting Volleyball Rules of the Game Committee, Referee Commission, Coaches Commission, Technical Commission and other experienced TDs to provide comments on these two issues. As a result, effectively immediately the following modifications to the current guidelines have been endorsed.

The first modification reflects the requirements for some athletes to have access to the devices during the match and relates to the placement of prosthesis. The review determined that:

Prostheses, crutches, wheelchairs, and other devices that may be required during the match may be stored behind the benches in a tidy manner, where they are able to be easily accessed for movement between sets, the court staff and Jury Member should ensure that the prostheses, crutches, wheelchairs, and other devices removed from the FOP are easily accessible, should an emergency occur during the match.

The second modification relates to Players Uniforms and supports the principle that the wearing of garments should respond to an individual team member's requirement.

Compression sleeves

This reinforces the current implementation from 1 January 2022.

Each player can choose to wear compression sleeves on one or both arms.

If the player wears more than one compression sleeve, they must be of the same colour. Acceptable colours are one of the neutral colours (black, white, or nude /skin) or matching to the playing top. If more than one player uses compression sleeves, each player is free to choose the colour of their compression sleeves, provided that they are one of the neutral colours, or matching to the playing top.

Compression Pants/Long Pants

Each player can choose to wear either shorts/short pants, compression pants or long pants as required. Each player may wear compression pants under their shorts / short pants, provided that the colour matches the colour of the shorts, or is one of the neutral colours (black, white or nude/skin).

All players that wear compression pants must wear the same colour.

Short Pants and Long Pants must be of the same colour.

During these months we have been working!

PVPA COMMUNICATION OFFICIAL CHANNEL

The PVPA would like to inform all members that an official communication channel has been created for the PVPA member nations. This group on WhatsApp aims to centralize the information we receive, and is intended to be disseminated on our social media. Remember that we will not be sharing any action not sent to this channel. To include members from your countries who have the right and knowledge to share information, please email your name and phone number to:

redesvanessa@gmail.com

HOW TO HOST

The image and reputation of the sport of ParaVolley is best characterized by the quality and organizational efficiency of PVPA's tournaments. In order to provide interested host nations with an opportunity to develop the sport, a bidding process has been introduced.

The bidding process is a key first step in determining if an organizer has the capacity and resources to stage an event, thereby helping to eliminate any unnecessary costs. Moreover, the procedure ensures a level of fairness by guaranteeing all interested parties have access to the same level of information - including the rules, regulations and expected standards of the international federation - at the time of bidding.

The procedures are in place to assist any potential organizer to prepare its BID and understand its obligations towards PVPA. In this way PVPA seeks to provide consistency in the way its tournaments are organized and presented, leading to a greater level of success for the organizers.

We would like to create a culture of having our zonal competitions confirmed one year in advance. We know that this would benefit all teams in creating a budget to enhance financial planning.

For further information and application forms to host and organize, please check out our website in "To be a Host" or contact:

Sport Director: Cristiana Figueira - crisfigueira12@gmail.com

President: Joe Campbell - panamerica@worldparavolley.org

PVPA INFORMATION REQUIRED

PVPA Nations,

I want to give to you some very important information that is crucial in hosting a Regional, National or International competition. This information should be submitted for both indoor sitting and beach standing volleyball.

In order for PVPA to maintain a current and correct History of events, and for the IPC/APC to track the activities in all 4 zones globally, we need for you to send a post-competition result to the PVPA Sport Director (Cristiana Figueira). This information is provided from World ParaVolley to the International Paralympic Committee every 4 years when we must apply for Sitting Volleyball to participate in each Paralympic Games.

Thank you for your cooperation in submitting your competition results. The following information should be included in your results.

- Name of competition
- Dates of competition
- Name of the location (city, state/province, country)
- Name of each team competing
- Final results of all teams competing

Why is it so important ?

ZONAL CHAMPIONSHIPS

As you know, the IPC requires all sports to apply for participation in the Paralympic Games. That time has come for Los Angeles 2028, and we have approved only Sitting Volleyball.

It's essential that each country try to develop the sport, and more than that, it is critical that tournaments are documented and submitted to PVPA. With these reports, we can show that our Zone is working hard for the development and growth of our sport.

Hosting an international event is another critical point. I know that isn't easy, but we need to try for the sport's good. PVPA can go through the checklist and handbook together so we can adjust the demands. Don't be afraid to talk to us. We are on the same side, with the same goal.

You can find all the required documents at www.paravolleypanam.com. If you have any doubts or questions in how to complete the documents, please contact Cristiana Figueira at crisfigueira12@gmail.com.

MEMBERSHIP

Check all our Member Nations How to become a Member of World ParaVolley /Pan America

Today we have six Member Nations, and we would like to expand to reach the entire Americas. Our mission is to take all disciplines of ParaVolley to all corners of our continent, because besides being a sport, it is a form of inclusion.

World ParaVolley Membership is open to a nation's:

- National Paralympic Committee (NPC)
- NPC-approved National Volleyball Federation
- NPC-approved National Sports Federation for Disabled

All Members must accept the World ParaVolley Constitution and Rules and Regulations, and must pay the membership fee. By paying the fee and signing the Membership Form the Member accepts the World ParaVolley Constitution, the Rules and Regulations of World ParaVolley, the World ParaVolley Classification Code, Medical Code and Anti-Doping Code, and all other member obligations, financial and otherwise. There can be only one recognised body per nation.

Membership fees are calculated every two years, and paid each year. The membership year is the calendar year (January 1 - December 31).

If you want to become a member please visit our website and you can find a link to "Become a Member" - <http://paravolleypanam.com/>
